Glass Balustrades
& Juliet Balconies

Strength and Safety with Style

iVision Glass Balustrades and Juliet Balconies from Inspired Architectural Solutions bring together the very best in safety, coupled with designed aesthetics, resulting in a range of products which lead the way, both in terms of practicality and stunning good looks. Ideal for projects on residential properties and commercial buildings alike, the iVision range of Glass Balustrades, iGuard Glass Balustrades and Juliet Balcony solutions offer a sleek appearance, along with the reassurance of British Standards approval for your complete peace of mind.

With strength at their core, iVision and iGuard systems not only offer uncompromising safety, but the support package available ensures a hassle-free route to planning, designing and building our range of beautiful balustrades and balconies.

iVision Glass Balustrade with iLux illumination

Inspired living

Make an Inspired Choice

iVision Glass Balustrades are the perfect solution to enhance any interior or exterior contemporary space.

Not only is the iVision Glass Balustrade system the strongest of its kind on the market, it has also been design engineered to feature more glass and fewer posts. The result is minimal sightlines, creating a balustrade that offers the perfect addition without compromising on safety or aesthetics.

Each iVision Glass Balustrade can be designed to suit your project. Using our unique online balustrade designer, iVision Glass Balustrades can be configured to your exact requirements in a matter of minutes.

Create your own unique design with the iVision system. Choose from a range of glass types including toughened, heat soaked toughened, low iron and toughened laminated. As

well as clear or opaque glass, choose from a selection of coloured tints. You can also select the perfect finish for your project from our stunning range, including stainless steel effect, wood effect or painted finishes. For that extra special touch, give your balustrade the 'wow factor' by including the unique iLux multi-coloured LED lighting system.

iVision, the inspired design-led solution for:

- Patios
- Balconies – both interior and exterior
- Walkways

Featuring beautiful aesthetics as standard, iVision Balustrades offer ease of installation, are virtually maintenance free and come with the peace of mind of being fully tested to British Standards.

iGuard Glass Balustrade offering wind protection without distracting the beautiful view

Peace of mind as standard

A superb combination of strength, practicality and sleek design, iGuard Glass Balustrades are fully British Standard tested for your complete peace of mind. With each glass panel optimised to provide a combination of safety and ease of installation, the minimal handrail sightlines ensure a clean, contemporary look which belies the immense strength of the system.

Easy to install and virtually maintenance free, the iGuard range is the perfect choice for residential or commercial applications.

Privacy Screens

iGuard Privacy Screens are capable of heights of up to 1.8m as standard and offer a stylish solution where for either practical reasons or planning requirements privacy is paramount. Offered with opaque glass as standard, and with many other colour options available, privacy screens have never looked so good.

Wind Protection

The beauty of living in exposed, rugged locations is often lost due to the strong winds which characterise these areas. iGuard Glass Balustrades provide the perfect barrier against the elements while still allowing the beauty of the surroundings to be enjoyed.

Enhanced Safety

Where a balustrade with increased height is required due to enhanced safety requirements, look no further than the iGuard system. Ideal for areas used by children, the elderly, or simply in high risk areas where additional protection from a fall is necessary, iGuard offers the reassurance of British Standard accreditation, yet still offers the same slimline looks and beauty it shares with iVision Glass Balustrade.

iVision Glass Balustrade with iGuard Privacy Screen

iGuard Glass Balustrades offer total peace of mind for:

- Privacy screening on balconies
- Wind protection screens
- Areas requiring child-safety
- Nursing homes
- Commercial buildings, offices and hotels with increased risk of fall

Make an Inspired Choice

Modern practicality with a romantic past

- Virtually maintenance free
- Fully tested to British Standards
- Range of finishes to complement or contrast with the property
- A choice of glass options

The iVision Juliet Balcony is designed with safety at its heart. The unique design ensures a sleek contemporary appearance.

The cleverly concealed brackets ensure a stunningly simple balcony design that ensures your home or office is flooded with natural light.

The high-end aesthetics of our iVision Juliet Balconies create the appearance of light and space at a fraction of the cost of traditional balconies. A perfect choice for private homes, apartments

and commercial buildings, iVision Juliet Balconies can be personalised to complement a wide array of buildings with a choice of finishes. These include stainless-steel effect, wood effect and painted as well as wide choice of glazing options.

Strong yet lightweight, iVision Juliet Balconies offer beautiful aesthetics combined with ease of installation at a competitive price point, making them the inspired option for both residential and commercial applications.

Vision Juliet balconies

iVision Juliet Balconies combined with iVision Glass Balustrades

Enhance iVision and iGuard Glass Balustrades with the beauty of light. Our unique iLux LED system is fully tested for peace of mind and is suitable for external use, even in the harshest environments. The choice is yours, with light intensity and colour personalisation at the touch of a button.

Let there be light

Add something extra special to your iVision Glass Balustrade or iGuard Glass Balustrade with the addition of our unique iLux LED lighting.

Easy to install and operate, and virtually maintenance free, iLux LED Illumination offers a choice of six colours as standard which can be further customised for depth of colour and luminosity to suit your mood and is the ideal upgrade for design conscious clients.

Not only does iLux Illumination add dramatic appeal to the iVision and iGuard ranges, it also enhances safety as balustrades and balconies are clearly defined in low light or at night. iLux Illumination provides homeowners, architects, developers and designers with a cost-effective, yet stunning enhancement which offers beauty with robust practicality.

iLux Illumination, the inspired choice for:

- iVision and iGuard Glass Balustrades
- Internal and external applications
- Private homes
- Apartments
- Hotels
- Commercial buildings
